

ARE YOU A PINNACLE USER WHO WANTS TO IMPROVE EFFICIENCY AND INCREASE PROFIT?

- **DO YOU WANT TO MAXIMISE THE PROFIT FROM THE CARS YOU BUY?**
- **DO YOU WANT TO MINIMISE THE COST OF PROCESSING AND INCREASE THE EASE WITH WHICH PARTS ARE SOLD?**

IF YOU ARE A PINNACLE USER THEN YOU ALREADY HAVE THE TOOLS TO DO THIS – YOU MAY JUST NOT BE USING THOSE TOOLS TO YOUR BEST ADVANTAGE.

My name is Steve Tapner and I have 30 years experience in the Dismantling Industry that includes 11 years testing, documenting and implementing Pinnacle systems for Australian Dismantlers.

As a consultant to the dismantling industry I have developed a number of processes to analyse the data you collect every day in Pinnacle to help you buy more of the most profitable cars, and process them more efficiently for more profitable sales.

In the increasingly competitive environment of the dismantling industry in 2015 your business can benefit from my help.

To enquire about a package that analyses your data and shows you and your staff improved ways to buy and process cars and fill orders, contact me using the details below.
